

MER Values:

- Professionalism
- Integrity
- Mutual Respect
- Discipline

Preservation of a Great Naval Historical Heritage:

Moran Environmental Recovery (MER) has great respect for America's maritime heritage. Working in association with members of the Historic Naval Ships Association (HNSA), MER is recognized for our craftsmanship providing specialized services on America's floating museums. These national treasures are not immune to the indignities of aging and great planning and respect is needed to help preserve our historic naval ships.

- **Capabilities:**
